

Resource guide: March 2018

This document provides an overview of the resources that you have access to as a PrescQIPP subscriber. It contains lists of the items currently available and links to where they sit on the PrescQIPP website. It also highlights items coming very soon.

DON'T FORGET! Make sure you are logged in to the website first so that any link you click takes you directly to the resource, not the log-in page.

Bulletins and supporting resources

Each item on the list below is linked to the PrescQIPP website. Click the item name to go to the correct webpage. All of the items listed as 'coming soon' have passed through our quality assurance process and are in the final stages of development. **Don't forget to log in first.**

All bulletins and briefings are available in an 'i' version that allows you to add your CCG/CSU name to the front page in order to improve recognition and usage in your areas.

Data packs are now embedded into each bulletin download page for all subscribers who have full access to data. If you're subscribed and have full access then make sure you're logged in. The reports are quite intuitive but we recommend visiting the [interactive visual analytics training page](#).

WORK PLAN ITEM	RESOURCES AVAILABLE

Webkits

Our older style **toolkits** brought together guidance, resources and best practice to provide comprehensive support for priority or particularly complex topic areas.

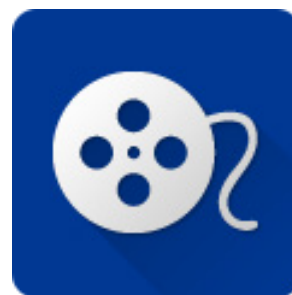

The **new webkit** pages are more dynamic, and will be easier for us to update on a regular basis. They bring together a strategic oversight introduction, data, the related bulletins and briefings, and best practice resources and further reading links from across the wider NHS.

<u>Adherence and waste</u>
<u>Antimicrobial stewardship</u> **NEW WEBKIT**
<u>Biosimilars</u>
<u>Care homes</u>
<u>Continence and stoma</u>
<u>Dermatology</u> **NEW WEBKIT**
<u>Diabetes</u>
<u>DROP-List</u>
<u>Nutrition</u>
<u>Polypharmacy and deprescribing</u>
<u>Primary care rebates</u>
<u>Reducing antipsychotic prescribing in dementia</u>
<u>Respiratory</u>
<u>Self care</u>
<u>Specials</u>
<u>Transfer of care</u>
<u>Wound care</u>

Training

Videos and courses to upskill and help you get the most out of the PrescQIPP site. A new e-learning section is also about to go live!

Health Economics Course	A brand new bespoke course for PrescQIPP subscribers on the theory and application of health economics.
Excel training course	A series of bespoke Excel training sessions to help upskill subscribers and enable them to work more effectively.
ePACT training course	Rachel Seeley our Community Prescribing Data Lead, has developed a series of training sessions to help you to use the system more confidently and effectively.
Visual analytics course	<p>Visual analytics are the newest addition to the bank of tools and resources to support you in your day to day work. They bring prescribing data to life and enable you to manipulate, interrogate and report on huge sets with incredible speed.</p> <p>In these three short sessions, Liam Cahill introduces the functionality provided by the new system, how to use it and what you can expect to see in the future.</p>

E-learning

All PrescQIPP courses are CPD certified and have been developed in line with our eQA process to ensure they meet the same high standard as our other quality assured materials.

- ▶ [Optimising medicines for adults with type 2 diabetes](#)
- ▶ [Anticholinergic burden](#)
- ▶ [Polypharmacy and deprescribing \(full version and concise version\)](#)
- ▶ [Practice medicines co-ordinators](#)
- ▶ [Medicines use in care homes: Course 1](#)
