

Resource guide June 2017

This document provides an overview of the resources that you have access to as a PrescQIPP subscriber. It contains lists of the items currently available and links to where they sit on the PrescQIPP website. It also highlights items coming very soon.

DON'T FORGET! Make sure you are logged in to the website first so that any link you click takes you directly to the resource, not the log-in page.

Bulletins and accompanying resources

Each item on the list below is linked to the PrescQIPP website. Click the item name to go to the correct webpage. All of the items listed as 'coming soon' have passed through our quality assurance process and are in the final stages of development. **Don't forget to log in first.**

All bulletins and briefings are now available in an 'i' version that allows you to add your CCG/CSU name to the front page in order to improve recognition and usage in your areas.

Please note that data packs are now available here:

<http://www.prescqipp.info/resources/viewcategory/271-bulletin-data-packs>

ITEM NAME	RESOURCES AVAILABLE				
	 Bulletin	 Briefing	 Implement. resources	 Data pack	 Education resources
ADHD	✓	✓	✓		
Alogliptin	✓	✓	✓	✓	
Amorolfine 5% nail lacquer (DROP-List)	✓	✓	✓	✓	
Anticholinergic drugs	✓		✓		✓
Antipsychotic drugs	✓	✓	✓	✓	
Appropriate prescribing for PKU	✓	✓	✓	✓

DID YOU KNOW?

You can search the PrescQIPP resources via BNF category. Visit: <http://www.prescqipp.info/> and click the BNF header or use the search function.

Webkits

Our older style **toolkits** brought together guidance, resources and best practice to provide comprehensive support for priority or particularly complex topic areas.

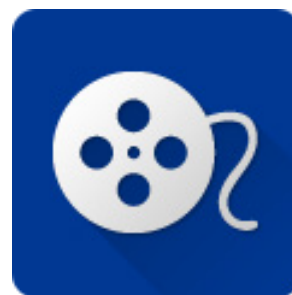

The **new webkit** pages are more dynamic, and will be easier for us to update on a regular basis. They bring together a strategic oversight introduction, data, the related bulletins and briefings, and best practice resources and further reading links from across the wider NHS.

<u>Adherence and waste</u> **NEW UPDATES, INCLUDING ANIMATION**
<u>Antimicrobial stewardship</u> **NEW WEBKIT**
<u>Biosimilars</u>
<u>Care homes</u>
<u>Continence and stoma</u>
<u>Dermatology</u> **NEW WEBKIT**
<u>Diabetes</u>
<u>DROP-List</u>
<u>Nutrition</u>
<u>Polypharmacy and deprescribing</u>
<u>Primary care rebates</u>
<u>Reducing antipsychotic prescribing in dementia</u>
<u>Respiratory</u>
<u>Self care</u>
<u>Specials</u>
<u>Transfer of care</u>
<u>Wound care</u>

Videos and webinars

To support our resources and provide flexible learning opportunities for you and your colleagues, PrescQIPP hosts regular **webinars**. You can take part in the live webinars or watch and share the recordings. All of the webinars in the list below can be found here:

<http://www.prescqipp.info/mediavideos>

WEBINAR TOPIC	PRESENTER(S)
E-learning overview	Kate Walmsley and Sue Smith
Polypharmacy and Medicines Optimisation	Dr Martin Duerden, Bangor University
National Commissioning Pharmacists Network	Judith Gregory
Warfarin genotyping	Professor Sir John Burns
PrescQIPP medicines waste campaign materials	Sajida Khatri and Claire Dearden
Health economics: Critical evaluation of a business case	Abby Tebboth
Opioid management of pain in secondary care	Dr Mark Abrahams
Health economics modelling	Ray Ghouse
NICE: Supporting safety and quality in care homes	Deborah O'Callaghan
Inhaler technique support tools and videos	Sajida Khatri, Richard Wyatt-Haines and Ellen Jenkins
Webinar to Showcase STOMPLD	David Branford and Anne Webster
Health Technology Assessments (HTAs)	James Clark-Wright
Health economics: An introduction	Ray Ghouse
Dealing with drug seeking behaviour	Ruth Bastable
SPS Webinar: Heart failure and medicines optimisation	Helen Williams
Primary care rebate schemes update	Kevan Wind and Liam Cahill
Prescribing Portal to Resolve Interface Prescribing Concerns	Kate Needham, North Derbyshire CCG and Martin Shepherd, CRHFT
Agreeing Treatment Goals, including shared decision making and patient centred care	Val Shaw
Saving time and resources in general practice with patient online	Fiona McDonald
Polypharmacy & Deprescribing - Frailty & End of Life Care & Education for HCPs	Val Shaw
Right Care Webinar	Carl Marsh
Excel training: Charts and conditional formatting	Nicky Stone
OptimiseRX Webinar - 9th June	Phil Verplancke and Chris Cousins
Excel training: Advanced pivot tables	Nicky Stone
ePACT training: Identifying out of area prescribing	Rachel Seeley

WEBINAR TOPIC	PRESENTER(S)
Best practice webinar: Prescription Ordering Direct Scheme	Coventry and Rugby CCG
Excel training - pivot tables/advanced pivot tables	Nicky Stone
Innovation Award Winner Webinar - Practice Medicines Co-ordinators (PMCs)	Nene CCG and Corby CCG
Excel training - useful functions	Nicky Stone
ePACT training	Rachel Seeley
Basic Excel training	Nicky Stone
The Innovation Scorecard Webinar with the HSCIC	Sue Faulding
Basic ePACT training	Rachel Seeley
Patient Centred Approaches to Medicines Adherence	Nina Barnett
PrescQIPP COPD resource	Sajida Khatri
Biosimilars - An update	James Kent
Appropriately engaging with the pharmaceutical industry	Carol Roberts, Kevan Wind and Karen Boner
PrescQIPP for practice level pharmacists webinar	Sajida Khatri
Care homes webkit	Sajida Khatri
Dermatology webinar	Sajida Khatri and Lindsay Wilson
Diabetes	Sajida Khatri
Wound care	Lindsay Wilson and Sajida Khatri
PURM (Pharmacy urgent repeat medicines) Service	Innovation Award winner Lisa Jamieson
Ways to improve your communications strategy	Liam Cahill and Tom Johnson
Tool to support care of Parkinson's patients in care homes	Innovation Award winner Jackie Smith
Self care webkit	Sajida Khatri
Specials Prescribing Optimisation Tool (SPOT)	Rakhi Aggarwal
A guide to PrescQIPP resources	Liam Cahill and Sajida Khatri
PrescQIPP Asthma Focus	Sajida Khatri
What a waste - East Staffs	Claire Dearden
Preparing for biosimilars (primary care)	James Kent
GRASP heart failure	Alan McGurk
Hospital admissions related to medicines	Rita Sanghera
PINCER	Tony Avery
GRASP COPD	Lauren Fensome
Preparing for biosimilars webinar (secondary care)	James Kent

WEBINAR TOPIC	PRESENTER(S)
GRASP suite introduction and GRASP AF	Lauren Fensome and Jean Hayhurst
Optimising polypharmacy and deprescribing	Katie Smith
GP registrar medicines optimisation training	Altaz Dhanani

Training

Videos and courses to upskill and help you get the most out of the PrescQIPP site. A new e-learning section is also about to go live!

Health Economics Course	A brand new bespoke course for PrescQIPP subscribers on the theory and application of health economics.
Excel training course	A series of bespoke Excel training sessions to help upskill subscribers and enable them to work more effectively.
ePACT training course	Rachel Seeley our Community Prescribing Data Lead, has developed a series of training sessions to help you to use the system more confidently and effectively.
Visual analytics course	<p>Visual analytics are the newest addition to the bank of tools and resources to support you in your day to day work. They bring prescribing data to life and enable you to manipulate, interrogate and report on huge sets with incredible speed.</p> <p>In these three short sessions, Liam Cahill introduces the functionality provided by the new system, how to use it and what you can expect to see in the future.</p>

E-learning

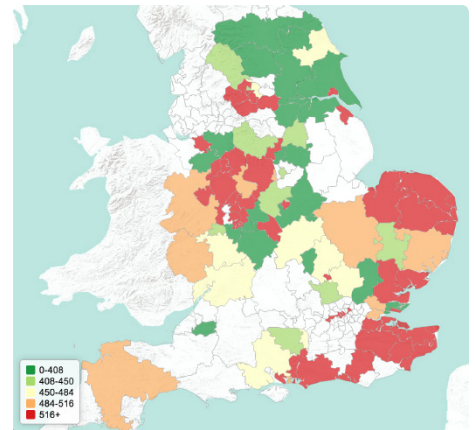

All PrescQIPP courses are CPD certified and have been developed in line with our eQA process to ensure they meet the same high standard as our other quality assured materials.

- ▶ [Optimising medicines for adults with type 2 diabetes](#)
- ▶ [Anticholinergic burden](#)
- ▶ [Polypharmacy and deprescribing](#)
- ▶ [Practice medicines co-ordinators](#)

The Data Hub

The Data Hub has seen some updates recently, most notably the integration of practice level data for those CCG areas subscribing to it.

It also has a new layout to help you navigate the frankly overwhelming resource available to you, and an introductory newsfeed, quick question form and sign up for the data leads group. Check it out here: <http://www.prescqipp.info/datahub>

The Primary Care Scorecard

The PrescQIPP Primary Care Scorecard is the nerve centre for all of our strategic prescribing projects, and is constantly growing in both use and functionality. The scorecard is directly aligned to our Projects, and monitors changing activity at a CCG level, as we update it each month. This resource is the first place to go before delving deeper into our data.

Quality Scorecard

The new quality scorecard brings together prescribing indicators which focus on appropriate prescribing, medicines safety and medicines optimisation issues.

The DROP-List Scorecard

The PrescQIPP Drugs to Review for Optimised Prescribing (DROP-List) is one of our most popular project areas. We have traditionally produced a snapshot for this area, however following the release of the NEW DROP-List, we have now updated the monitoring to a whole new level - akin to our other scorecards. For more information about the DROP-List please visit the [DROP-List page](#).

PrescQIPP Priorities Report

The Priorities Report brings together headline information from across our three scorecards (primary, DROP and quality) in a simple and accessible format. The report will allow filtering of projects to support reporting within CCGs and CSUs.

Financial Growth Reports

- ▶ Summary Growth Report - detailing the year on year changes in both item, spend for all of our CCGs.
- ▶ Deep Dive Growth Report - allowing you to select your CCG, and view:
 - » Level 1 - BNF Chapter Level changes in spend and items.
 - » Level 2 - Going down to section and chemical level within the selected BNF chapter.
 - » Top 100 chemicals in terms of actual growth in cost, and compared to national.

Snapshots

For a number of key areas we produce 'Snapshots' which are mini-scorecards dedicated to that area. These documents often provide more detailed information, or 'deep dive' down to a further level than we would within the Primary Care Scorecard. Interactive maps for each area are also available.

Snapshots available

- ▶ Specials Order Products Snapshot
- ▶ Nutrition Snapshot
- ▶ Continence Snapshot
- ▶ Stoma Snapshot
- ▶ Wound care
- ▶ Skin care
- ▶ All of these are updated regularly (most monthly), and wherever possible we also provide interactive maps on our Data Hub.

Specials Tariff Watch

The quarterly Specials Tariff Watch is designed to help prescribers navigate the changes in Part VIII B of the drug tariff to facilitate cost-effective prescribing. It also includes the top ten list of potential highest savings. The document is based on, and replaces, work by Anne Fowler of NHS Lancashire (with thanks!).

Primary Care Rebates Monitoring System

PrescQIPP is now the country's largest provider of governance around primary care rebates, and was amongst the very first. In that time we've seen the landscape change dramatically around such schemes. Whilst PrescQIPP neither formally solicit nor endorse primary care rebates, we recognise that whilst activity continues at a local level, efforts should be made to provide governance and reduce the administrative burden. Tens of assessments from our Pharmaceutical Industry Scheme Governance Review Board can be found in the Rebates Section, and we have also produced a system to help CCGs scope the financial elements of schemes, and also track/validate financial claims.

Maps

We produce interactive maps for all of the Scorecard and Snapshot areas to compare CCGs across the country.

Intelligence support tools

A repository of tools, widgets and guides to help you understand our data, replicate at a practice level and support your own initiatives.

Innovation and best practice

Now including the 2015 entries, the Innovation Hub showcases best practice from PrescQIPP subscribers. Browse through the projects here: <http://www.prescqipp.info/innovationhub>

Sharepoint

This is a new spot on our website where we can share useful documents such as business cases, job descriptions and person specifications, prescribing incentive schemes etc. The information will be simple to share and access, so get sharing now and help our community build something useful.

<http://www.prescqipp.info/sharepoint>

PrescQIPP 2017/18 work plan

To see all of the items on the newly released 2017/18 work plan visit the horizon scan on the front page of the website.

Please note that the yearly work plan may be subject to change if:

- ▶ Higher priority projects are suggested and agreed by the stakeholder network,
- ▶ New products releases or key guidance is delayed (e.g. NICE)
- ▶ There is unforeseen absences of key team members.

The PrescQIPP team will otherwise endeavour to release an equivalent amount of work dispersed over the course of the financial year.

Sign up for the monthly newsletter

Although we will be updating this quick reference document regularly, the PrescQIPP newsletter is another easy way to keep up to date with our latest publications, webinars and events.

Delivered straight to your inbox this succinct mailout contains information about all of the latest publications and subscriber news.

[Visit the website to sign up.](#)

Annual event 2017 - get the date in your diary

The date for the 2017 event has been confirmed as 17 October.
